

3T Breast MRI

One in every 8 women will be diagnosed with breast cancer in their lifetime.

Don't Take A Chance With Breast Cancer

Continuing our quest to provide the best possible care for our community, Merrimack Valley MRI is pleased to announce expanded breast MRI services with our new state-of-the-art **3 Tesla MRI scanner.**

Whether you have:

- A personal history of breast cancer
- A family history of breast cancer
- Abnormal mammogram and/or ultrasound
- Dense breast tissue that would cause limited sensitivity on mammography
- Breast implants

3T MRI is the *most advanced technology available* for breast imaging. 3T MRI images of the breasts can help provide a better overall picture to assist with the diagnosis and, more importantly, the next step in treatment.

Your 3T breast MRI radiologic staff includes:

James R. Johnston, M.D.

Medical Director, Merrimack Valley MRI

Robert C. Hannon, M.D.

Recipient of the Certificate of Proficiency from the American College of Radiology in Breast MRI and MRI-Guided Biopsy

For more information, please call (978) 682-1906.

The Breast MRI Care Line is open 24 hours a day. Any messages left will be returned promptly by one of our staff experts.
